400,000 MEN MAY STRIKE

Labor Leaders Threaten To Tie Up Whole Street Car System.

By United Press.
NEW YORK, Sept. 15.—With subway and elevated lines running at better than normal capacity and taking care of the overflow from the tied-up surface lines, officials of the New York traction systems today declared the carmen strike broken.

With a showing of some 10,000 former employees sticking to their strike, union labor leaders countered with a threat that unless a settlement came on their own terms they would tie up the city Monday with a simultaneous strike of 400,000 trade unionists.

Between the two divergent claims, Mayor Mitchell and the public service commission were seeking, so far in vain, to obtain some mutual ground for adjustment.
